41st Annual Gift to Customers

My plan of making a gift for each $1.00 worth of seed ordered has resulted in great satisfaction to my customers. This season I am giving 3 seed packets of beautiful hardy perennials, as shown on this cover, which are sure to prove a pleasure when they come into bloom with their many colors.

**Delphinium** (Gold Medal Hybrids). Beautiful flowers borne on tall spikes; a gorgeous sight. Spikes are frequently from 5 to 6 feet high and colors range from pale lilac through beautiful shades of blue to pansy-violet. (Pkt., 50 seeds).

**Digitalis** grows from 5 to 7 feet tall, the flowering portion of spike being about 4 feet in length, in colors from pure white to deepest rose and primrose-yellow, wonderfully blotched and spotted dark maroon, crimson and chocolate. (Pkt., 150 seeds).

**Perennial Poppy, Orientale** For gorgeous coloring - the Oriental Poppies have few rivals among the hardy plants. Immense blooms are 6 inches and over in diameter. Plants are stately, growing to a height of about 3 feet. (Pkt., 250 seeds)

**REMEMBER**—Every customer ordering $1.00 worth of anything from this SEED BOOK will receive FREE, one packet seed each of the above three HARDY PERENNIALS. If purchase is $2.00, you will receive 3 packets of each (6 plts.), and so on: 3 packets for every $1.00 purchased.
LAKE CHAMPLAIN Muskmelon
A superior quality muskmelon of extreme earliness, successfully grown in Northern Michigan, New York, Vermont, Maine, also Canada. Combined with earliness it has a flavor unsurpassed. It is a medium sized melon, attractively netted, flesh deep, of a golden yellow color, very sweet.

Pkt. (about 100 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.

Surely a squash fit for a Queen's taste. Cut in half and baked for 20 minutes its delicious flavor is a pleasant surprise, the meat exceptionally dry and mealy. Fruits 6 to 7 in. long and 4 to 5 in. in diameter. Ripe in early Fall. A splendid keeper.

Pkt. (about 100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

The Burbank Tomato
The earliest, smoothest, and most compact grower, whereby plants can be set closer than with any other variety. The large sized fruits are bright crimson red, solid and of superior quality. One of the latest and best creations of Luther Burbank.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; 1/2 oz., 50c.

A new radish of beautiful bright scarlet color, earliest of the forcing kind, equally as good for the early garden. Flesh pure white, very crisp, mild and juicy. Small top and very small tap root; a radish of high quality and our selected seed stock is Northern grown.

Pkt. (about 500 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.

A slender, dark green cucumber with the appearance of the greenhouse product, succeeding equally well in greenhouse or garden. 12 to 14 in. long by 2 1/4 in. diameter, fine quality, retaining dark green color a long time after picking.

Pkt. (about 100 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.

A new variety of cucumber, a slender, dark green cucumber with the appearance of the greenhouse product, succeeding equally well in greenhouse or garden. 12 to 14 in. long by 2 1/4 in. diameter, fine quality, retaining dark green color a long time after picking.

Pkt. (about 100 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.
**Plant Mills Tested Seeds**

Highest Quality—Lowest Prices

This is the forty-first annual edition of Mills Seed Book, and looking back over the past forty-one years of personal supervision in selecting that which is best to offer, and the active part taken in the production of the best seed to offer and sell, I know that the effort has been well spent, as I am still supplying many of my first customers with garden and flower seeds.

Looking to the future I expect to find continued pleasure in many more years of active work here at Rose Hill, N. Y., where I have the best of facilities, with mail in and out twice daily direct to mail trains, which gives you as prompt service as can be given, and I am operating without the heavy overhead expense ever present with the city seedsmen and this advantage I pass along to my customers as reflected in my very moderate prices for as good seeds as can be produced.

Read My Double Guarantee

First—I guarantee the Vitality and Purity of my seeds to the full extent of the purchase price. Even with the highest quality seeds success in gardening and farming depends largely upon soil, cultivation and weather conditions. It is therefore agreed that in no case shall I be liable for more than the amount actually paid for the seeds or bulbs, and if not accepted on these conditions they must be returned at once.

Second—I guarantee the safe arrival of all seeds and bulbs in good condition and should anything be lost on the way I will refill when proof is furnished of non-arrival. This is the Double Guarantee that protects all who purchase Mills Seeds and Bulbs.

My Motto is—“Never send out any seeds or bulbs which I do not know that I myself would be thoroughly satisfied with, were the position of buyer and seller reversed.”

Seeds and Bulbs Delivered by Parcel Post

All seeds offered in this Seed Book by the packet, ounce, pound or fraction of a pound, or any quantity of bulbs, will be delivered to your post office at the prices given, entirely postpaid. Packages weighing up to 70 pounds can be sent into the 1st, 2nd, and 3rd zones, and 50 pounds in the weight limit of packages to the 4th, 5th, 6th, 7th, and 8th zones.

Send your order for Vegetables and Flower Seeds to Mills Seed House, Rose Hill, N. Y., and get the best Seeds that money can buy, and remember you will receive Free for Trial my special collection of one packet of seed each of the three hardiest perennials shown on front cover with every $1.00 worth ordered from this Seed Book.

Leaflets on Culture Free With Order if Asked For

- How to Grow Beautiful Aster
- How to Grow Sweet Peas
- Soli and Beet Culture
- Tomato Culture
- Insect Pests in the Garden
- How to Grow Cauliflower
- How to Grow Gladiolus

Our interests are really mutual—your success is my success—I want to help you all I can for I want you to have the finest garden in your neighborhood by planting Mills Seeds.

How to Order

Please sign your name and full address on every order or letter you send me, and write very plainly and use my Order Sheet when ordering, if possible.

I have been doing a strictly cash-with-order business for forty years and you run no risk in sending money with order. I refer you to my hundreds of thousands of customers all over the United States. No seeds sent C. O. D.

Remit at my risk by Money Order, Draft or Check. Use Registered Letter if you send Cash or Stamps.

Customers outside the United States must add 20 per cent to my catalog prices for the extra postage and packing required. No foreign postage stamps or foreign coin accepted.

**Bush Beans**

Notice: I offer Beans by the packet, half pound and pound, instead of by the pint and quart.
- One half pound equals about ½ pint.
- One pound equals about 1 pint.
- Two pounds equal about 1 quart.
- Fifteen pounds equal 1 peck.
- Sixty pounds equal 1 bushel.

**Giant Stringless Green Pod**
This is a very popular green pod Bean and one of the best. The plants are of strong growth, very productive, pods about 5 inches long, light green, slightly curved, very meaty and absolutely stringless. No better variety for the home garden on account of its fine flavor and brittleness. Ready for picking in about 45 days.

Pkt. (about 100 seeds), 6c; 3 pkts., 15c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.15, postpaid.

**Bountiful Bush (Green Pod)**
Remarkably Prolific and Continuous Bearer.
This Bean is a great favorite wherever known. Plant is of thrifty growth and practically rust and mildew proof. It is extremely early, very prolific, hardy, and bears continuously for several weeks. It is the first to give pods fit to pick in the spring and about the last to yield edible pods in the fall. The rich, green pods, which are of large size, thick, broad, and extra long, uniform in shape, solid and meaty, are absolutely stringless. Ready for picking in about 45 days.

Pkt. (about 100 seeds), 6c; 3 pkts., 15c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.15, postpaid.

**Mammoth Bush Lima Beans.**
This is one of the best Mammoth Lima Beans. Plants grow 18 to 20 inches high in bush form and produce Beans as large as Pole Lima, and are ready to use nearly two weeks earlier. The Beans are thick, of excellent quality and of the true buttery Lima flavor. It is an enormous yielder and every garden should have some of these Limas. Ready in 65 to 70 days.

Pkt. (about 30 large seeds), 8c; 3 pkts., 15c; ½ lb., 25c; 1 lb., 45c; 3 lbs., $1.30, postpaid.

**Sure Crop Wax (Yellow Pod)**
This is a very prolific cropper of high quality. The habit of the plant is sturdy and upright in growth, branching freely, carrying a heavy crop of handsome, rich yellow pods, average 4 to 7 inches in length. The pods are very meaty and sweet and perfectly stringless at all times, making it especially valuable for home garden planting. It is ready to pick in about 45 days and you should grow it.

Pkt. (about 100 seeds), 6c; 3 pkts., 15c; ½ lb., 25c; 1 lb., 45c; 3 lbs., $1.30, postpaid.

**Mills Rust-Proof Wax (Yellow Pod)**
I consider this one of the best Rust Proof Wax Beans in cultivation, and it always produces heavy crops of large attractive golden yellow pods. These pods are very thick and flaky, tender, brittle, and entirely stringless at all stages until maturity. As its name indicates it is practically Rust and Mildew proof. 

Pkt. (about 100 seeds), 6c; 3 pkts., 15c; ½ lb., 25c; 1 lb., 45c; 3 lbs., $1.30, postpaid.

Rainbow Collection of Gladioli
Plant a liberal supply of my Rainbow Collection of Gladioli, 100 or more bulbs, if you possibly can, and you will have a wonderful display of gorgeous flowers. See page 32 for description and prices.
Improved 1200-to-1 Bean

I have been growing this Bean for several years endeavoring to improve it each season. The plants are of decidedly robust growth, branching freely, producing great quantities of pods in clusters well filled with nearly round, medium sized, pure white beans, of the best quality. It ripens very evenly and if given good cultivation will mature its crop in about 75 days.

It is a sure cropper and has made wonderful records. Read the report of one of my customers, Mr. Chas. H. Fuller, Montpelier, Vt., as follows:

"I am enclosing a copy of a record I made of the 1200 to 1 Bean. From this you will see that I tried out these Beans in all kinds of soil."

Many had 7 Beans.

I have many other splendid reports on this Bean from all parts of the country, but do not have space here to print them.

This Bean when introduced was named 1,200 to 1—but this does not indicate or mean that all plants will produce such large yields, for the season, soil, time of planting, care, etc., has everything to do with production. Mr. Fuller produced 358 pods and 2,247 beans from 1 bean planted, see his report above.

Plant only 1 bean in a hill on soil not wet or too rich, or the vines will throw out tendrils and run too much to vine. Remember this is a shell bean for soup or baking and not a snap bean. Try it.

Pkt. (about 60 beans), 10c; 3 pkts., 25c; ½ lb., 50c; 1 lb., 80c; 3 lbs., $1.15, postpaid.

CLIMBING OR POLE BEANS

Kentucky Wonder, or Old Homestead

This variety is one of the earliest and most desirable of all the green podded running types. It is enormously productive; the pods, hanging in great clusters from base to top of pole, are of a silvery green color and entirely stringless, growing rough and spongy as the beans ripen. They cook delectably tender at all times and are very popular among home and market gardeners.

Pkt. (about 60 seeds), 8c; 3 pkts., 25c; ½ lb., 50c; 1 lb., 80c; 3 lbs., $1.25, postpaid.

Golden Cluster Pole Wax

The grandest Yellow-Podded Pole Bean in cultivation. As shown by the photograph it produces great quantities of stringless golden-colored waxy pods 7 to 9 inches long, pods being produced in clusters of from 4 to 6 all over the vine. The pods are thick, fleshy, and of delicate flavor, and if kept picked off and not permitted to ripen the vines will bear continuously until late in Fall. Ready in about 75 days.

Pkt. (about 60 seeds), 8c; 3 pkts., 25c; ½ lb., 50c; 1 lb., 80c; 3 lbs., $1.35, postpaid.

Giant Podded Pole Lima

This is the very earliest Pole Lima and also extremely productive. It is a strong grower, clinging well to the pole and is a sure cropper. The pods hang from the foliage in large clusters and contain from 3 to 5 and sometimes even more big fat buttery Beans to the pod, of the finest quality. It is extremely productive throughout the season. For a Pole Lima plant this one. Ready in about 80 days.

Pkt. (about 30 large seeds), 8c; 3 pkts., 25c; ½ lb., 50c; 1 lb., 80c; 3 lbs., $1.35, postpaid.

New Guinea Gourd Bean

The vines will climb an arbor or any support to a height of 20 to 30 feet, or it will run along on fences. Fruits grow from 3 to 4 feet in length and 4 to 6 inches in diameter. They are used in the same manner as Squashes and Egg Plant being sliced and fried. Matures in about 100 days.

Growing instructions on every packet.

Pkt. (about 15 seeds), 10c; 3 pkts., 25c; ½ lb., 50c; 1 lb., 80c; 3 lbs., $1.35, postpaid.
**Table Beets**

**Mills Extra Early Blood Turnip Beet**

This is a selected strain and I claim it is the finest main crop all-purpose beet in cultivation. It is uniform in size, handsome in appearance and attracts attention everywhere. It is very early, the color being a rich, dark red, and the quality is superb, being sweet, tender, and fine-grained. Splendid for canning, and its keeping qualities are excellent. Ready for use in 45 to 60 days from seed.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; 1oz., 3c; ½ lb., 6c; ¾ lb., 9c.

**Crosby’s Egyptian**

A very popular Extra Early Garden Beet, and a money maker for market gardeners. This Beet is handsome in form, good sized, small tops, very small tap root, fine quality, flesh deep red, and of quick, rapid growth. Ready for use in 45 to 50 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; 1 oz., 3c; ½ lb., 6c; ¾ lb., 9c.

**Market Gardeners’** The root is deep red, dark red, very sweet, crisp and tender, being good at all stages of growth. It is a rapid grower, making a heavy root for autumn or winter use. Symmetrical in shape and handsome in appearance.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 9c.

**Early Pickling Blood Beet**

This is one of the grandest of all Early Blood Turnip Beets. It is a small, round, uniform shaped variety. Color a glossy red and of exceptionally fine quality. The Beets are smooth, with small tap root. It is especially popular as a family beet for pickling or for greens. It is good for early planting for Spring and Summer use, and can be stored in the cellar for Winter use on account of its long keeping qualities. Ready for use in about 40 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 9c.

**Improved Long Red**

The flesh is rich dark red, very sweet, crisp and tender. Stands dry weather better than most sorts, and is good for Fall and Winter use. Roots 8 to 10 inches long when matured, requiring 60 to 70 days.

Pkt. (about 250 seeds), 3c; 3 pkts., 8c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 9c.

**Eclipse**

This is an early Beet, of round, uniform shape and of very fine quality. Color is a glossy red. Beets are smooth with very small tap root. A popular family Beet and desirable for greens. Ready for use in 45 to 48 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 9c.

**Mangels - For Stock Feeding**

5 pounds will sow an acre in drills.

**Mills Mammoth Prize Long Red Mangel**

The most popular red Mangel, sometimes called “Giant” or “Jumbo.” Often grows from 24 to 30 inches in length, weighing from 20 to 30 lbs. This variety will yield more tons per acre than any other and is one of the best for stock feeding during Winter.

Pkt. (200 to 400 seeds), 4c; 3 pkts., 9c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 10c; 1 lb., 20c; 5 lbs., $1.25, postpaid.

**Golden Tankard Mangel**

The most desirable Yellow Mangel, enormous varieties, producing from 1,000 to 2,000 bushels per acre on good soil. Quality high and is greatly prized by dairy farmers.

Pkt. (200 to 400 seeds), 4c; 3 pkts., 9c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 10c; 1 lb., 20c; 5 lbs., $2.50, postpaid.

**Giant Half Sugar Mangel**

Considered by many more valuable for feeding purposes than the other Mangels. Yields nearly as much per acre, roots large, oval in form, with small tops. Beets are smooth, very sweet, crisp and tender, being good at all stages of growth.

Pkt. (300 to 400 seeds), 4c; 3 pkts., 9c; 6 pkts., 16c; 1 oz., 3c; ¼ lb., 6c; ½ lb., 10c; 1 lb., 20c; 5 lbs., $2.25, postpaid.

**Mills Mammoth Prize Long Red Mangel—The Jumbo of All Mangels.**

---

*Leaflet, "How to Grow Beets" free with order if asked for.*
Cabbage

My list is made up of the very best Early, Medium and Late Crop varieties. Seed is all carefully tested.

In the Northern and Central States for early use sow seeds of the early kinds in a box in the house or a hotbed in February or March. Transplant to the open ground in April or May, or sow a bed outside as soon as soil can be worked. For second early or late Cabbage sow in April or May and transplant in June or July.

All-Head Early

This is the earliest of the large flat head sorts. Remarkably solid and in reality an all-year-round Cabbage, being equally good for Winter. Grown for Summer and Fall use, if sown early in July it will form solid heads, Ready for market in about 90 days. Pkt. (about 500 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 30c; % lb., 75c.

Chinese Cabbage

Resembles celery, yet is somewhat like Cos Lettuce. Firm, crisp, easily blanched, excellent as greens or salad. Pkt. (about 250 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Copenhagen Market Cabbage

A splendid early Cabbage from Denmark, producing a large, globe-shaped head, averaging about 8 lbs. in weight with few loose leaves, permitting close planting. It is a vigorous grower and an excellent keeper. Does well in the South. Ready for market in about 80 days. Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; % lb., $1.00.

Mills 60-Day Cabbage

The Earliest Head Heading Cabbage in Cultivation. This is a great variety and should be planted in every garden. 60-Day is just what its name implies and has produced heads in 60 days from sowing of the seed under favorable conditions and I am sure it will please all who grow it. The heads are pointed, fair sized, very solid, and just right for market gardeners, truckers or home gardens, for it will readily sell in any market. It can be planted closer than most varieties of Cabbage and almost every plant is sure to form a perfect head if sufficiently fertilized and cared for.

Pkt. (about 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 25c; % lb., $1.00.

Early Spring

It is desired by many on account of being a first early flat head Cabbage. It is of the All-Head Early type resembling it in habit of growth but a little smaller. It is round in shape, slightly flattened, very solid even before the heads attain their mature size. Ready in about 85 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 25c; % lb., 50c.

Early Jersey Wakefield Cabbage

This is a very popular sort and needs no description. The heads are usually hard and solid, generally pointed at the ends with but few outer leaves. I offer a very fine strain which matures in about 90 days from the sowing of the seed.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 25c; oz., 30c; % lb., 75c.

World Beater

The Giant of All Cabbage.

This is one of the greatest of the main crop Cabbages. Enormous in size, and one of the best keepers. It often produces heads from 3 to 3½ feet in circumference, which are rounded on top, very firm and solid, and a good keeper. The heads are fine grained and it is considered the king of winter Cabbage. The absence of any large outer leaves permits more plants to the acre than most large, late varieties, and this feature makes it nice for home gardens, and it is also sure to produce more per acre when grown for market. It is probably the largest heading of all Cabbages but requires strong soil for the best results. Ready for market in 110 to 120 days.

Pkt. (about 500 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; oz., 30c; % lb., $1.00.

Try This Cabbage

Try this. Mills 60-Day Cabbage. Try It.
Danish Ballhead

This is the hardest of all Cabbages, being especially desirable for shipping. The hardness, solidity, and weight of heads is truly wonderful and heads of equal size will weigh quite a little more than other varieties. A grand variety for storing, if market prices are not satisfactory in the fall. It has few outer leaves which admits of close planting. Heads are medium sized and it is especially recommended for growing for market purposes in the Northern states. Matures its crop in about 120 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 50c; ½ lb., $1.00.

Mills Giant Late Flat Dutch Cabbage

It forms large, solid heads, flat on top, of a bluish green color. It has a very short stem and is a compact grower, and is quite free from a tendency to burst. It is an all round good late Cabbage and will mature in about 120 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c; ½ lb., 60c.

All-Seasons

Good Early and Late

This is one of the finest for second early or late crop, growing to a large size. The heads are extremely hard and solid; round. A very hardy and always sure to head even where other varieties fail. It is one of the best keepers. Matures in about 110 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ½ lb., 75c.

Early Winningstadt

One of the best early sorts for general use, and an old favorite everywhere. Heads are pointed, very hard and of uniform shape. A good keeper Winter and Summer. Ready for market in about 90 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ½ lb., 75c.

Surehead

A well known variety and one of the best late Cabbages. Heads are very uniform in shape, of the Flat Dutch type, weighing from 10 to 20 lbs. under favorable conditions. Few other varieties can approach it in fine quality and uniform reliability in forming solid heads of good size. It is the very best, stalks grow strong, producing 3 to 4 nice well formed ears to a stalk. The pearly white grains are pointed like White Rice. This corn is very quick to pop, hence its name, and the kernels rounded and smooth, not sharp and pointed like White Rice. The kernels are large, nearly as large as early Flint Field Corn, of a beautiful pearly white color, and pop nearly twice the size of any other Pop Corn. Matures in about 120 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ½ lb., 75c.

Mammoth Rock Red

This is the largest of the red Cabbages and a sure header. Heads round, very solid, weighing 8 to 12 lbs., and an attractive red color extending to the center of the head. Very hardy and valuable sort for the home garden, market or pickling. Ready for market in about 110 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ½ lb., 75c.

Australian Hulless

Also known in some sections as Japanese Rice or Tom Thumb Pop Corn. It is a heavy yielder, has attractive ears. Peculiar in form, being nearly as thick as long, as shown by the photograph. The kernels are similar to White Rice only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality and fine flavor. It deserves special attention and you should try it. Matures in about 120 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ½ lb., 75c.

White Rice

Everybody knows the old variety called White Rice. My strain is the very best, stalks grow strong, producing 3 to 4 nice well developed ears to a stalk. The pearly white grains are pointed and are set closely on a small cob, protected by a thick strong husk. Matures in 130 to 140 days.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ½ lb., 75c.

HOW TO MAKE POP CORN BALLS

Cook 1 pint of syrup, 1 pint of sugar, 2 tablespoons butter, and 1 teaspoon of vinegar until it hardens when dropped in cold water. Remove to the back of stove and add 1½ teaspoon of soda dissolved in a tablespoon of hot water and then pour the hot syrup over 4 quarts of freshly popped corn, stirring well until each kernel is coated, when it can be shaped.
Sweet or Sugar Corn

For first early plant First of All; second early, Golden Bantam and Golden Evergreen; for late crop, Country Gentleman and the Evergreens. Sweet Corn can be raised on any good ordinary soil if it is thoroughly worked before planting, but a rich, warm soil is best. Give frequent and thorough cultivation until the tassels appear.

Golden Bantam
The most famous Sweet Corn. In cultivation, the stalks grow only 4 to 5 feet high, usually bearing 2 or more ears to a stalk. When ears are ready for use they are a creamy yellow in color, being rich, sugary, and sweetest of all. Golden Bantam is suited for extra early and late plantings up to July 15th. Ready to use in 60 to 70 days. Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.00, postpaid.

Mills First of All
It is one of the earliest Sweet Corns for the home garden. It being a few days earlier than all others not only makes it valuable for family use but extremely valuable for market. It is rather dwarf in growth but produces good sized ears of superior quality, tender and sweet. My customers plant this variety very extensively every year. Under favorable conditions matures in about 55 days. Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.00, postpaid.

White Evergreen
This is similar in quality, type of ear, etc. to Stowell's Evergreen, but is a few days earlier. The kernels are clear white, closely set in rows on a small cob, and usually have 16 or more rows of deep grains to the ear. The flavor is remarkably sweet and it retains its delicate flavor and pure white color when canned. I can recommend this corn for the home garden, for market and for canning. Ready to use in 80 to 90 days. Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.00, postpaid.

Golden Evergreen
This new variety combines the size of one of the Evergreen type with the color and delicious quality of the Golden Bantam. The ears are of good size, well filled with deep kernels of rich yellow color. In quality it is equal to the famous Golden Bantam. For the home garden and fancy market trade it is a great Corn, furnishing such large ears of such superior quality and sweetness. Ready to use in 75 to 90 days. Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.00, postpaid.

Stowell's Evergreen
The old well known variety for home use, market, and canning. The grains are of good size, long, and slender. It is highly recommended on account of its sweetness and good canning qualities. Ready in 90 to 100 days. Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; postpaid.

Country Gentleman
One of the finest and sweetest of all Sweet Corns for the table. As shown by the photograph the kernels on the cob are irregular, plump, nearly white, and tender. Ears average 7 to 9 inches in length, each small, and grain is very deep. Another good point is its prolificacy, rarely producing less than 3 ears to the stalk. Ready to use in 80 to 90 days. Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 22c; 1 lb., 40c; 3 lbs., $1.00, postpaid.
Carrots

Mills Champion Yellow
Flesh dark reddish orange color, tender and sweet. A heavy cropper, maturing in about 75 days. Good for table use or for stock feeding. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

Earliest Scarlet Forcing
The earliest of all Carrots and best for forcing, also suited for home garden for quick crop. Roots grow nearly round, 2 to 2 1/2 inches in length, of rich orange color. Tender and sweet. Nice for table in about 75 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c; lb., 35c.

Golden Beauty
A splendid table variety, growing from 5 to 7 inches long. The flesh is a beautiful rich orange color, tender and fine grained, free from hard core. It is mediumearly, with small tops. A splendid keeper and ready for table in 80 to 85 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c; 1/4 lb., 35c.

Mastodon
Suited for shallow soil but an enormous cropper. Root large pure white, smooth, flesh rich and solid, best for stock feeding. Matures in about 90 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c; 1/4 lb., 35c.

Earliest Scarlet Forcing Carrot.

Giant Short White
Roots are half long, smooth, but tapering to the point. Color white, solid, crisp, and good for stock feeding. Matures in about 85 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c; 1/4 lb., 35c.

Progressive Short White
An early variety that grows to good size suitable for market. It is jet black in color, flesh white and of good flavor. A vigorous grower, being extremely productive, ready for table in about 65 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

Asparagus

BLACK BEAUTY. Best for the Northern States, and it is the earliest variety that grows to good size suitable for market. It is jet black in color, shape is well shown in illustration, average weight 2 to 3 lbs. Ready for table in about 130 days. Pkt. (about 125 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 50c.

NEW YORK IMPROVED LARGE PURPLE. A favorite for both market and private use, and a standard sort in the South. Fruit is large, skin rich purple, flesh white and of good flavor. A vigorous grower, being extremely productive, ready for table in about 140 days. Pkt. (about 125 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 50c.

Palmietto. Early, light green sort, remarkably tender and rich when cooked. Soak seed 24 hours in warm water before sowing. Pkt. (about 200 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

Corn Salad or Fetticus
A good salad, especially for winter use. Can also be cooked and used like spinach. Sow early in spring for summer use, or July or August for fall use. It is ready for table in 60 days. Pkt. (about 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

Egg Plants

BLACK BEAUTY. Best for the Northern States, and it is the earliest variety that grows to good size suitable for market. It is jet black in color, shape is well shown in illustration, average weight 2 to 3 lbs. Ready for table in about 130 days. Pkt. (about 125 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 50c.

NEW YORK IMPROVED LARGE PURPLE. A favorite for both market and private use, and a standard sort in the South. Fruit is large, skin rich purple, flesh white and of good flavor. A vigorous grower, being extremely productive, ready for table in about 140 days. Pkt. (about 125 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 50c.

Asparagus

ENDIVE. Sow early in spring and the plants reach casting stage in 60 to 65 days. GREEN CURLED. Leaves tender, green but bleach white. Pkt. (about 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

BROAD LEAVED BATAVIAN. Leaves large and broad. Tie up for blanching. Pkt. (about 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.
**Celery**

**Dwarf Golden Heart**
Half dwarf sort, producing handsome stalks of a rich green color, bleaching to a beautiful golden yellow, crisp, brittle, and of excellent flavor and a good keeper. Matures in about 125 days. Pkt. (over 1500 seeds), $5; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Mills Celery Mixture**
Contains a splendid selection of varieties suitable for the home garden which are easily blanched. Matures in about 115 days. Pkt. (over 2000 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Golden Self-Blanching Celery**
This variety is the standard for winter use. Plants are of strong vigorous growth, very sticky habit, with solid, thick, and very broad leaf-stalks. It is a rich dark green in color until earthed up, then the stalks blanch to a beautiful golden yellow. Matures in 110 to 120 days. Pkt. (over 1800 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**True Georgia Coliards**
These are the decided favorites for the table or for stock. Ready in about 90 days. Packet (about 500 seeds), $5; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Cauliflower**

**Giant White Solid**
This is a beautiful type not only does the stem whiten but especially every inner leaf, making an attractive white Cauliflower. It is tender, brittle, and sweet flavored. Valuable for fall or early winter use. Fit to eat in about 120 days. Pkt. (over 1600 seeds), $5; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Giant Pascal**
One of the best sorts for winter use at home or for nearby market. It is too crisp for shipping. The stalks are remarkably large, crisp, and brittle, and has a sweet, nutty flavor. Matures in 140 days. Pkt. (over 1600 seeds), $5; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**White Plume**
I offer a very fine strain which is the earliest and most easily blanched of any Cauliflower in cultivation. It grows rapidly being easily blanched through the summer months, but is not as long keeper as some sorts. Matures about 110 days. Pkt. (over 1800 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Brussels Sprouts**
**LARGE WHITE**
Cultivate and use same as Cauliflower. Produces large white heads which remain in good condition longer than Cauliflower. Ready for table in 110 days. Pkt. (150 to 200 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Broccoli**
**LARGE WHITE**
Cultivate and use same as Cauliflower. Produces large white heads which remain in good condition longer than Cauliflower. Ready for table in 110 days. Pkt. (150 to 200 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Brussels Sprouts**
**PERFECTION**
One of the best vegetables for fall and winter use. Plant grows about 2 feet high, thickly set with good sized sprouts of fine flavor. Ready for table in 110 to 120 days. Packet (250 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Mustard**
**Used for flavoring in pickles.**
White. Pkt. (600 seeds), $6; 3 pkts., $15; 6 pkts., $25; 1 oz., $50.

**Try the 3 great vegetables shown on inside front cover.
Cucumbers

CULTURE. The plants are tender and planting should be delayed until settled warm weather. Prepare low hills 6 feet apart each way, the soil enriched with decomposed manure stirred into soil. Scatter 12 to 15 seeds over hill and cover 1 inch deep pressing soil firmly. For Cucumber bugs and worms dust with "Slug Shot." For lice spray with "Black Leaf 40." For blight spray with Bordeaux Mixture.

Mills Earliest Everbearing. This is a grand early everbearing variety, and not only extremely profile but will continue in bearing throughout the season. The fruits are a rich deep green color, medium in size, being produced in abundance, closely set on strong vines. Flesh white, very firm and crisp. It is the first to come and the last to go, fruiting all the time. Ready to use in 50 to 60 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ½ lb., 40c.

Japanese Climbing. The variety originally came from Japan. Young plants grow strong and bushy and as soon as they become well established begin to climb, or creep, and may be grown on fences, poles or trellises. Fruits are from 12 to 15 inches in length, skin smooth, dark green, flesh pure white, crisp, and mild flavor. Can be picked in about 55 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 11c; 6 pkts., 20c; oz., 11c.

Davis Perfect. A very fine cucumber for market as well as for the home garden. Fruits grow from 7 to 9 inches long, tapering at both ends with an intensely dark green skin.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ½ lb., 40c.

Japanese Climbing. Remarkable new variety of the long green cucumber from China. When mature they average from 15 to 20 inches long, and 2 to 3 inches in diameter, flesh solid, crisp, good flavor. Vines strong and vigorous, matures in from 65 to 70 days. Do not fail to try this wonderful variety.

Pkt. (about 50 seeds), 6c; 3 pkts., 16c; 6 pkts., 25c.

Early Fortune. One of the finest cucumbers of the White Spine type, fruit 7 to 9 inches long, flesh white, firm, and crisp. Ready in 60 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ½ lb., 35c.

Improved Long Green. Fruits grow from 10 to 16 inches in length and are of superior quality. Flesh very firm and crisp. The young fruit is used very largely for pickling and full-sized Cucumbers are largely used for slicing and for making the so-called sweet pickles when the fruits are ripe and yellow. Ready to pick in about 65 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ½ lb., 40c.

Mills Earliest White Spine. A special strain of White Spine which is most desirable for its extreme earliness. It is very productive and good for forcing as well as for the home garden. Fruits uniform in size, flesh white, crisp and solid. Ready in about 60 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ½ lb., 35c.

Improve Long Green.
Lettuce

To have the best Lettuce it should be kept growing rapidly, giving plenty of sunlight and moisture. A light, rich soil is best. For a succession plant every two or three weeks.

Black Seeded Simpson

Large curled or loose leaf Lettuce, very tender, crisp, fine quality and sweet flavor. Ready in 40 days. Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Big Boston

Large head variety, grown all over the country both North and South for market. Forms big, tender, and crisp heads of rich yellow color, inside of fine quality. It is adapted to open ground for summer and fall use or to growing in frames to force. It withstands adverse weather conditions. Ready in about 55 days.

Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Grand Rapids

A curled or loose leaf Lettuce of rapid, upright growth, retaining its freshness a long time after being cut, good for forcing, crisp, and sweet. Not liable to rot, standing several days after being ready to cut without injury. Ready in about 40 days.

Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Improved Hanson

Forms large heads having a sweet rich flavor, good from earliest spring until late in fall. A sure-heading sort standing the heat remarkably well. Ready in about 50 days.

Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Romaine or White Cos

Leaves being well folded toward the center, bleaching almost pure white, is crisp, and tender. Ready in about 55 days.

Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Kale or Borecole or Spinach "Greens" for early fall, winter or spring use.

DWARF GREEN CURLED. Plant in dwarf and early, with large, deep green leaves curled and crumpled. Ready to cut in about 60 days.

Pkt. (100 to 200 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.

Okra or Gumbo

WHITE VELVET. Pods round, smooth, of white velvety appearance, very tender, nice for soups, stews, etc. Ready in about 65 days.

Pkt. (over 50 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.

Kohl Rabi

Finer flavor and sweeter than Turnips.

Sow seed in spring and again in June and July.

EARLY WHITE VIENNA. Flesh white and tender, excellent forcing variety, ready in about 60 days.

Pkt. (200 to 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.

EARLY PURPLE VIENNA. Skin purple, flesh pure white, tender, and fine flavored. Ready in about 65 days.

Pkt. (200 to 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.
Radishes

Mills Earliest or 15-Day Radish

If you wish to have the first red Radishes, sow this one. The skin is a rich scarlet color, flesh pure white, tender, mild and sweet. It is a favorite wherever grown.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 2c; ½ lb., 35c.

Mr. Joseph Schuman of Brown Co., Ohio, writes: I am sending you a sample of Radishes that I raised from the trial package of seeds you sent me when I ordered my garden seed from you last Spring. They are surely a fine Radish and are ready in from 12 to 15 days after planting.

Icicle

The finest of the early long white Radishes, being pure white in color, long, slender, and tapering in shape. It grows quickly to market size, crisp and brittle and of mild, sweet flavor. Regarded by many as the finest radish grown. Plant every 10 days for succession. Ready for use in 25 to 30 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 2c; ½ lb., 35c.

Giant Butter

This is a giant Radish, bright scarlet in color, small top, flesh very tender, crisp, with zones of pink. Very mild in flavor and a long keeper. It is excellent for forcing or early spring planting and considered quite a novelty. For lack of room I am unable to illustrate it. Matures in about 33 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ½ lb., 25c.

Crimson Giant Radish

Grows larger than any of the early round sorts. A beautiful deep crimson color, often measuring 5 to 6 inches in circumference. Flesh is white, firm and crisp, mild in flavor, maturing in about 35 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 2c; ½ lb., 35c.

Crimson Giant any round sorts. A beautiful deep crimson color, often measuring 5 to 6 inches in circumference. Flesh is white, firm and crisp, mild in flavor, maturing in about 35 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ½ lb., 25c.

New Saxa Radish

An extra fine radish, shown in color inside front cover.

Pkt. (about 500 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.

All-Seasons Mixture

This mixture contains a great collection of all kinds, colors, and shapes, for the home garden, especially where the space is limited. One sowing is all that is required for a continuous supply, as they become ready for use from about 18 to 60 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ½ lb., 25c; 1 lb., 35c.

For earliest crop of radishes sow as early in spring as ground can be worked and then sow about every two weeks throughout the season for succession.

There are three points to be observed in growing good radishes, first, select light quick soil, second, they should have plenty of moisture, and third, use my seed which will produce good crisp roots.

All-Seasons Radish Mixture.

French Breakfast Radish.
Watermelons

**Kleckley Sweets**
One of the most popular, early, large Watermelons grown, and desirable to plant for home use or nearby markets. The fruits are very attractive, oblong in form and have a glossy dark green skin. The rind is thin and the flesh is a beautiful bright scarlet in color, crisp, and sugary. It gives satisfaction everywhere and I can recommend it for both North and South. Matures in about 85 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 10c; % lb., 25c; lb., $1.00.

**Wonderful Sugar**
A large, oblong, dark green Melon, with broad stripes of lighter green. Flesh is rosy pink, solid, sweet, and delicious, very prolific and withstands weather conditions well. The rind is too delicate to withstand shipment but it has become very popular as a home garden melon. It will mature in about 85 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; % lb., 25c; lb., 75c.

**Dixie**
The fruits are large, oblong in shape, from 18 to 24 inches in length, skin dark green with stripes of lighter shade. Flesh bright red and of excellent quality. Ready in 80 to 90 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; % lb., 25c; lb., 75c.

**Apple Pie Melon**
Excellent for Pies, Preserving, Etc.

This melon has fruit similar to the Watermelon but the flesh is used exclusively for sauces, pies, preserves, etc. The flavor somewhat resembles apples, the flesh solid and white. They will keep fresh and solid nearly all Winter, so they can be used when wanted. Matures in about 100 days.

Pkt. (about 50 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; lb., 75c.

**Sweet Heart**
This is a large Watermelon, nearly globular in shape, but a little longer than thick. The skin is a bright mottled green, the flesh red, firm, crisp, and exceedingly sweet. A good keeper, excellent shipper, and matures in about 80 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; % lb., 25c; lb., 75c.

**Cocoanut or Climbing**
A very novel and attractive Watermelon, and if the vines are trained and tied to trellises they make a very interesting sight. The melons are about the size of a cocoanut, are very solid, rich crimson flesh of the highest quality. Fruit grows and ripens for a long period. Ready 80 to 90 days.

Pkt. (about 50 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; lb., 75c.

**Citron**
This melon is used for making preserves. Matures in about 100 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; % lb., 25c; lb., 75c.
Yellow Meated Prize (ORANGE FLESH)
This is an early Melon of the solid netted type, and a very desirable one to grow. It has a very small seed cavity with thick, sweet, luscious flesh of a rich, orange color. It is a splendid keeper, and stands shipping well. Matures fruits in about 75 days.

Pkt. (150 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 36c.

Jenny Lind (GREEN FLESH) This is the earliest and best salmon-flushed Melons, and is excellent for the home garden or for shipping. Melons are a nice size and shape as shown by the illustration and the flavor cannot be surpassed. Flesh is very thick, fine grained, and of a rich luscious flavor. It is finely netted and a very even size.

Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 36c; lb., $1.

Emerald Gem (GREEN FLESH) This is a beautiful Melon and is truly a gem. It is early but will not stand shipping any great distance to market, but is unequalled for home use or for nearby markets. If fruits are gathered as soon as they ripen, the vines will continue bearing throughout the season. The melons are slightly flattened. The skin is smooth and heavily ribbed. The flesh is very thick and acknowledged to be the most delicious in flavor while the seed cavity is small.

Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 36c.

Succession Crops
Early beans followed by cantaloupes.
Rutabagas followed by rutabaga or turnips.
Lettuce or radish seeds followed by tomatoes.
Spinach, lettuce or radish seeds followed by cabbage.
Early peas followed by peppers, eggplant or tomatoes.
Cucumbers followed by cucumbers or tomatoes.
Lettuce or radish seeds followed by cabbage or spinach.
Early onions followed by peppers, eggplant or tomatoes.
Tomatoes followed by cantaloupes or tomatoes.

Mills Earlist Muskmelon (GREEN FLESH) The fruits are smooth, round almost white, averaging about 6 inches in diameter by 7 to 8 inches long. The green flesh is thick and has a peculiar sweet flavor, something like that of honey. It ripens a little earlier and longer season than other melons and are at their best when appear only a little over-ripe.

Pkt. (about 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 36c.

Montreal Market (GREEN FLESH) This well known Melon is of large size, often weighing 15 to 20 lbs. each. The skin is green and the flesh is light green in color and of delicious melting flavor. The vines are a very prolific grower and fruits mature in about 80 days. This melon commands high prices on the Eastern markets in the late fall months, and is a good shipper.

Pkt. (200 to 300 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 36c; lb., $1.
Culture. Melons do best in sandy soil or sand land; the ground should be made rich. The hills should be four to six feet apart with ten to twelve seeds in each hill. Put the seeds an inch deep and when danger of frost is over thin to four good plants to a hill. One ounce for 50 hills; 2 pounds per acre. Plant in May and June.

**BENDER'S SURPRISE**

A high-class melon of delicious flavor and sweetness. The flesh is deep orange and very thick. The large, oval-shaped, coarsely netted melons often weigh from 10 to 15 pounds each. The flesh is so thick and the rind so firm that Bender's Surprise will keep perfectly for a week after picking and the flavor will actually improve.

Pkt. (150 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

**Golden Heart Muskmelon**

As photo shows, grows early, flesh is thick, very tender and of a beautiful golden salmon color. The flavor is excellent, being very sweet and delicious, it ripens clear to the skin, and the thin rind is of a rich dark green color. The vines are very productive, fruits set early and cluster abundantly. The fruit is an excellent keeper and a melon that is hard to beat, and every home garden should grow some of these superb melons. Will produce ripe fruits in about 70 days.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 9c.

**Mixed Muskmelons**

A splendid mixture of green, orange, and salmon-fleshed varieties, maturing from the very earliest to the late varieties. By planting this mixture one is sure to produce some melons that are suited to their climate. Excellent assortment for the home garden.

Pkt. (200 to 250 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 9c; ½ lb., 20c.

**Odd Collection of Gourds**

Here is a great mixture of rare, strange, and curious gourds one would never think of seeing. The colors, shapes, and sizes include nearly everything to be found in the gourd family, and just what you will want to plant for a curiosity. Matures in about 70 to 90 days.

Pkt. (30 to 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

**Japanese Nest Egg Gourd**

Resembling in color, shape, and size, the eggs of hens, being pure white in color. The matured fruit does not crack and will serve for years as a nest egg. A rapid grower, good climber and extremely ornamental and useful for covering arbors, screens, etc. Matures in about 75 days.

Pkt. (25 to 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

**Calabash Pipe Gourd**

An attractive gourd which anyone can grow, and it can be used in making pipes. They are the lightest pipes made for their size, graceful in shape and color. The vines are very ornamental for covering fences, etc. Matures in about 90 days.

Pkt. (15 to 25 large seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.
Onions

Extra Early Red Onion

This is a sure cropper, extra early, and a long keeping variety. It matures earlier than the Globe Danvers but somewhat resembles it in size and shape, yielding a larger crop in both weight and bulk. The skin is a reddish brown in color, and the flesh is white, exceedingly solid, crisp, and of mild, sweet flavor. I believe it is the longest keeping Onion, bulbs having been kept in fine condition for over a year after they were harvested. It is a splendid Onion for the North and matures in 85 to 90 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ½ lb., 80c.

Giant Australian Brown Onion

This is one of the most popular Onions for Winter market in many of the Northern States. It does not ripen as early as some Onions, consequently it continues in growth throughout the season, making very solid Onions. The large bulbs are flattened but thick through as shown by the illustration. The outer skin is a deep, rich purplish red, smooth and glossy; flesh white, lightly tinged with pinkish rose, and very mild in flavor. It is the very best strain of Red Wethersfield which will mature in about 115 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., $1.00.

Large Red Wethersfield Onion

This is one of the most popular Onions for Winter market in many of the Northern States. It does not ripen as early as some Onions, consequently it continues in growth throughout the season, making very solid Onions. The large bulbs are flattened but thick through as shown by the illustration. The outer skin is a deep, rich purplish red, smooth and glossy; flesh white, lightly tinged with pinkish rose, and very mild in flavor. Prize Taker is a very satisfactory Onion to grow from seed planted directly in the row, but in dry season and light soil the bulbs while ripening evenly and quite early will not attain such large size as in more favorable location and conditions. Will mature in from 130 to 140 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., 80c.

Prize Taker Onion

Prize Taker (American Grown) I do not think there is an Onion that can surpass the American-Grown Prize Taker in size, beauty, and productiveness. The bulbs grow about three times as large as the Globe Danvers under ordinary cultivation, and under special conditions bulbs have been raised weighing 4 to 5 lbs. each. The plants grow strong and it requires 3 to 4 weeks longer season than the Danvers. Skin is thin, of a bright straw color, flesh pure white, crisp, very mild, and sweet in flavor. Prize Taker is a very satisfactory Onion to grow from seed planted directly in the row, but in dry season and light soil the bulbs while ripening evenly and quite early will not attain such large size as in more favorable location and conditions. Will mature in from 130 to 140 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., $1.00.

Good Onion seed is very important—many poor strains are on the market. Onions are most suited to produce large crops under intensive cultivation, and I believe more dollars worth of Onions can be grown on an acre than most any other crop. I have been supplying the best Onion seed to my customers for the past 40 years.

Mills Selected Yellow Globe Danvers Onion

Mills Selected Yellow Globe Danvers Onion

This is a magnificent Onion—the standard variety for Winter use. It produces bulbs averaging about 2 inches in diameter and nearly globe-shaped. The skin is a beautiful pale yellow and the flesh is pure white, crisp, and mild in flavor. The plants have very slender necks and consequently the bulbs keep well over Winter. It ripens up uniformly and is an immense cropper; over 900 bushels per acre have been raised. On account of its attractive shape and color, and its excellent keeping qualities, it always brings a good price in the markets. Matures in about 110 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., $1.00.

Extra Early Red Onion

Extra Early Red Onion

This is a sure cropper, extra early, and a long keeping variety. It matures earlier than Globe Danvers but somewhat resembles it in size and shape, yielding a larger crop in both weight and bulk. The skin is a reddish brown in color, and the flesh is white, exceedingly solid, crisp, and of mild, sweet flavor. I believe it is the longest keeping Onion, bulbs having been kept in fine condition for over a year after they were harvested. It is a splendid Onion for the North and matures in 85 to 100 days.

Pkt. (over 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., 80c.

Onions are most suited to produce large crops under intensive cultivation, and I believe more dollars worth of Onions can be grown on an acre than most any other crop. I have been supplying the best Onion seed to my customers for the past 40 years.
Mammoth Silver King

This mammoth white variety is one of the largest in cultivation. The large bulbs are of attractive form, flattened but quite thick through, and under good cultivation will average from 5 to 6 inches in diameter. The skin is a beautiful silvery white, flesh snow white, tender, and of a mild, sweet flavor. Mammoth specimens can be grown from seed sown early in spring, maturing in 90 to 110 days.

Pkt. (about 300 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; oz., 30c; ½ lb., $1.00.

Mills White Pickling Onions

This is the earliest ripening onion in cultivation, and the best of all for small pickles. The onions are a pure paper-white in color, averaging from 1 to 1½ inches in diameter, of very mild and delicate flavor. Fine for bunching for early market, gardeners planting largely of this variety which commands high prices in all markets. Ready to use in 70 to 90 days.

Pkt. (about 300 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Giant Thick-Leaved Spinach

New Zealand Everbearing

This is an entirely distinct species, and ideal for the home garden. It resists heat and makes a strong growth producing its tender branches throughout the hottest summer months when ordinary Spinach is not to be had. Fit to cut in about 50 days.

Pkt. (about 100 large seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 25c.
Pumpkins

Cultural Directions. Usually grown in cornfields, but if grown as a separate crop, seed should be planted in hills 8 to 10 feet apart each way after the frost and soil get warm. Hoe often till vines begin to run. Use one ounce of seed to 20 hills of most varieties, 3 to 4 pounds per acre.

Golden Sugar Pie
One of the best for pies. Fruits are of small size, averaging about 10 inches in diameter. Skin of deep orange yellow, flesh fine grained, sweet, and of delicious flavor. A most prolific yielder, excellent keeper and cannot be excelled as a table pumpkin. Matures in about 65 days. Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 25c; 1 lb., 50c.

Winter Luxury
Primarily ornamental and claimed to be one of the best pie pumpkins in existence. It is of medium size, evenly and finely netted, and is a yellowish russet color. The flesh is a deep golden color, sweet, and tender. Matures in about 95 days. Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Mills Giant
This is a prize winning variety growing to an enormous size. The flesh is bright yellow, fine grained and of good quality. Notwithstanding the large size it is excellent for pies. I have raised specimens weighing nearly 200 lbs. and it is nothing uncommon for my customers to report specimens weighing 100 lbs. or more. This is an excellent pumpkin to plant for show purposes on account of attaining such enormous weight and will create great interest wherever grown. These large pumpkins contain but few seeds so the price is necessarily high. Matures in 110 to 120 days. Pkt. (15 to 20 large seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Yellow Sweet Potato Pie
This handsome orange pumpkin is famed as a pie-maker. The flesh is very thick and finely grained, of a beautiful golden yellow color and in flavor and texture particularly adapted for pie making purposes. A wonderful winter keeping pumpkin remaining in good condition until Spring. Matures in about 90 days. Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 30c; 1 lb., 50c.

White Cushaw or Jonathan
This is a crook-necked variety with a hard creamy white shell. The fruits grow about 2 feet in length with long, solid, meaty neck. The flesh is yellow, solid, sweet, and excellent for pies and can also be used for stock feeding if desired. It often produces pumpkins fit to use in about 70 days. Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 35c; 1 lb., 60c.

Common Field
This ordinary yellow Pumpkin is used to plant in corn fields for feeding stock. It grows to large size, nearly round and is very productive, and one of the hardest pumpkins. Matures in about 90 to 100 days. Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 25c; 1 lb., 50c.

Surprise Mixture
This is a special mixture containing a wonderful collection of the different kinds of pumpkins, many I do not offer separately. You can grow a great lot of pumpkins of all the odd-shaped and mammoth-sized if you plant a little of this seed. The photograph sent me by a customer shows what was produced from this mixture—pumpkins of every imaginable shape and color. Pumkins are maturing from 60 to 120 days. Pkt. (75 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 25c; oz., 15c; 1/2 lb., 30c; 1 lb., $1.00.

Parson

Seed is slow to germinate and should be sown as early as possible in spring in well prepared soil. The roots are improved by frost and should not be dug until late in fall, and stored in the cellar, but many prefer to leave in the ground until spring to be dug as required.

Improved Long Smooth or Sugar
The roots grow uniformly large, of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base. The flesh is white, of fine texture, free from core and stringiness, fine flavored, cooking tender, rich, and sweet. Enormously productive, maturing in 80 to 85 days, and may be stored in the cellar for winter use or left in the ground all winter and dug when weather permits in spring. Pkt. (200 to 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; 1/2 lb., 40c.
PEAS

Mills First of All This is one of the very best extra early smooth Peas. The vines are quite slender, of very quick growth, and average 20 to 30 inches in height. The pods are well filled with smooth, round, creamy white peas that ripen so evenly as not to require more than two pickings, and sometimes if the season is very favorable one picking will take the entire crop. Quite a favorite for very early spring planting.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; ½ lb., 25c; lb., 45c; 3 lbs., $1.10, postpaid.

The Peas and Beans I offer are all grown from hardy and robust Northern stock, which produce more peas or beans to the pod and more pods to the plant than other stocks not Northern grown.

American Wonder This is the earliest wrinkled Pea. The vines grow 10 to 12 inches high and are very prolific in producing pods well filled with large luscious peas. Peas planted in May will mature in 35 to 40 days and on account of requiring no brush or other support is well adapted for the home garden. Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.10, postpaid.

Gradus or Prosperity This Pea is claimed by many the best early wrinkled pea in existence. The vine has heavy stems and grows about 2½ to 3 feet high bearing large pods from 4 to 5½ inches in length, well filled with peas of large size, of the finest flavor. Ready for use in about 55 days.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.10, postpaid.

Champion of England The vines grow strong, 4 to 6 feet tall; is one of the oldest and best wrinkled peas in cultivation. The fine large pods are filled with large peas of delicious flavor. Cannot be over-praised as a standard late sort. It matures in 75 to 80 days.

Pkt. (about 200 seeds), 6c; 3 pkts., 15c; ½ lb., 22c; lb., 40c; 3 lbs., $1.10, postpaid.

Telephone The vines grow on an average from 2½ to 4½ feet tall, and a profitable main crop sort. Pods are of good size, well filled with from 6 to 8 large peas of rich, sweet flavor. It is a sure cropper and the quality of the Telephone is hard to beat. In the Northern States a late pea like the Telephone planted about July 1st will usually bear until a hard frost. Fit for picking in about 70 days.

Pkt. (about 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20, postpaid.

Thomas Laxton This is a rival to the famous Gradus or Prosperity, having wrinkled seed producing a long-podded extremely early pea. Plant grows about 3½ feet high, being identical with Gradus, but the pods are a deeper, richer green, and experts claim it is even sweeter and finer in flavor. The crop ripens only a few days after Gradus, and is ready to pick in about 58 to 60 days.

Pkt. (100 to 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., $1.20.
**Peas**

**Unsurpassed Everbearing (Second Early)**

A grand wrinkled Pea growing about 2 feet high. It has a remarkable branching habit and is a continuous long season bearer, especially adapted to summer and autumn cropping. The vines produce well-filled pods, the peas being very large, tender and of superior quality. It will do well without bushing and will produce pods for picking in 60 to 65 days.

Pkt. (100 to 150 seeds), 6c; 3 pkts., 15c; Vs lb., 24c; lb., 45c; 3 lbs., $1.25 postpaid.

**Chinese Peas**

**Mills Enormous Giant of the Pea Family The Largest Podded and the Heaviest Cropper**

There are few varieties of seed in this Seed Book that are better named than this Giant Pea, when you consider that it will produce pods attaining the extraordinary length of 7 inches and upwards, closely packed with from 10 to 12 dark green peas of fine flavor. The plant is of branching habit growing about 5 feet in height with dark green foliage. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in clusters, making an attractive appearance. Every customer will be delighted with this giant pea. A few plants growing in your garden will produce a great quantity of pods and peas and will be profitable as well as interesting. For the best results give the vines a little support. Matures pods in 70 to 80 days.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

**Peppers**

**Chinese Giant Pepper.**

The largest, mild, red Pepper. Plants grow stocky, about 2 feet in height, thickly set with enormous pods 3 to 5 inches in diameter of a brilliant, glossy scarlet. Flesh thick and meaty. Ripe fruits in about 145 days.

Pkt. (50 to 100 seeds), 5c; 2 pkts., 12c; 6 pkts., 20c; oz., 25c.

**Tomato Pepper**

Upright growth, productive, so mild they may be eaten like an apple. Fine for canning or as a salad. Matures in about 110 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Improved Ruby King Pepper.**

Plant grows about 2 feet high and produces a fine crop of large scarlet fruits of sweet, mild flavor, 4 to 6 inches long by 2 to 4 inches thick. Fruit ripens in about 130 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

**Mammoth Golden Queen Pepper.**

Sweetest and largest yellow Mango Pepper, specimens reaching 6 to 8 inches in length and 4 to 5 inches in diameter, maturing in about 130 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Improved Kuby Kini Pepper.**

Long Red Cayenne Pepper. The well known favorite hot Pepper, fruits conical, 3 to 4 inches long, of bright red color, and borne in great profusion. Matures in about 125 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Pimiento Pepper.**

The sweetest Pepper grows very productive; produces medium sized brilliant red peppers maturing in about 125 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Mills Earliest Pepper**

This Grand Early Pepper is a prize for anyone who wants Peppers early in the season. Many people have difficulty in getting pepper plants to bear well, but if you plant Mills Earliest you will be more than pleased. The plants grow from 12 to 15 inches high, and usually produce so many peppers that they seem hardly able to support them, for they are clustered all over the plant. Often early in August some peppers will be ripe, a handsome red in color, and nearly all ripe before frost under favorable conditions. The fruit is of good size, just about right, while the flavor is very mild. For the Northern part of the country this is the only large, sweet pepper that can be relied upon to produce a crop.

Pkt. (about 50 seeds), 5c; 3 pkts., 12c.

**Mixed Peppers**

A grand assortment of Peppers whereby anyone can have peppers in 100 to 140 days.

Pkt. (75 to 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

**Pimiento**

The sweetest Pepper grown. Very productive; produces medium sized brilliant red peppers maturing in about 125 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

**Chinese Giant Pepper.**

Plant grows compact, producing an abundance of small coral red Peppers crowded in a bunch at the top of the branches, distinct and beautiful. Matures in about 135 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

**Mexican Bouquet**

Plant grows compact, producing an abundance of small coral red Peppers crowded in a bunch at the top of the branches, distinct and beautiful. Matures in about 135 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.
**Squash**

**Delicious**

An early winter variety of medium size, preferred by some to the Hubbard. Color dark green, shell moderately hard but very thin. Flesh thick, fine-grained, and bright yellow. Very rich deep golden yellow or orange-colored flesh, and is very fine grained, solid, and dry. Best known for market in 70 to 80 days. Ready for market in 65 to 71 days.

Pkt. (10 to 20 seeds), 5c; 5 pkts., 12c; 6 pkts., 20c; oz., 15c; 1/2 lb., 50c.

---

**Improved Hubbard**

The most popular winter squash, of medium size, much used for pies. Fine flavor. Ready for table in 65 to 71 days.

Pkt. (10 to 60 seeds), 5c; 5 pkts., 12c; 6 pkts., 20c; oz., 15c; 1/2 lb., 50c.

---

**Mammoth White Bush**

Ideal for pies. Ready for table in 50 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c.

---

**Mammoth Unio**

Supplies the table the entire season. This is a wonderful mixture of all known kinds. In it will be found early and late, large, medium, and small varieties, whereby anyone can have a great supply of delicious squashes throughout the entire season, many being good Winter keepers. Mature from June to October.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 12c.

---

**Golden Summer Crookneck**

A very large variety and under special cultivation attains a great weight, and is very attractive in appearance. The outer skin of this giant squash is rich orange-yellow. Flesh yellow, very thick, and the quality is good. A prolific variety and a good Winter keeper and will mature in 80 to 100 days. Pkt. (30 to 40 seeds), 5c; 5 pkts., 12c; 6 pkts., 20c; oz., 15c.

---

**Mammoth White Bush Squash**

Mammoth White Bush Supplies the table the entire season. This is a wonderful mixture of all known kinds. In it will be found early and late, large, medium, and small varieties, whereby anyone can have a great supply of delicious squashes throughout the entire season, many being good Winter keepers. Mature from June to October.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 12c.

---

**Herb Seed**

Those marked * are perennial and when once obtained in the garden may be preserved for years.

- Anise: Seeds aromatic.
- Balm: Has medicinal qualities.
- Celery: Seeds aromatic.
- Caraway: Seeds aromatic.
- Dill: Seeds aromatic.
- Fennel: Seeds aromatic.
- Geranium: Medicinal qualities.
- Horehound: Medicinal qualities.
- Lavender: Very fragrant.
- Rosemary: Very fragrant.
- Summer Savory: For seasoning.
- Sweet Fennel: Seeds aromatic.
- Sage: Culinary herb.
- Thyme: For seasoning.

Price: pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 15c.

---

**PEANUTS**

Selected Mammoth

Mammoth Peanuts. Pkt. (7 to 12 Mammoth Nuts), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 12c.

---

**MIXED SQUASH**

For pies, sauce, preserves, or sweet pickles.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 12c.

---

**Vegetable Peaches**

The Vegetable Peach is a fruit you should grow in your garden this year. It grows about the size of a large peach, of a bright orange color, somewhat russeted. It is produced on vines smaller than a muskmelon vine, and requires the same cultivation. It is easily grown in most any section of the country, and is a great producer. The fruit is very attractive, flesh firm, and is a good keeper. It is fine for pies, sauce, preserves, or sweet pickles.

Recipes for cooking, canning, and preserving on every packet.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 12c.
Mills Giant Climbing
or Mammoth Prize

I have made this Mammoth Tomato a specialty for years and it has given great satisfaction wherever grown. It possesses every good quality to be found in a Tomato. Vines grow strong and vigorous and when properly trained will attain the height of 12 to 15 feet, and carry an enormous weight of fruit. Its massive fruits are almost perfect in form, and so to size, weight, and solidly no other mammoth Tomato I know of can approach it. I have seen specimens weighing 3½ pounds and it is nothing unusual for fruits to weigh 1, 2, and 3 pounds each. See photograph. Every garden should have a few of these Tomato plants. Reaps to ripen in about 110 days.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c.

Earlina Tomatoes.

Earlina A very popular, extremely early, red Tomato, of good size and quite smooth, also known as Sparks’ Earlina. It is very popular with many growers of Tomatoes for early market. Plants are of compact growth and are very robust. The vine is compact and well, the plants being crowded with clusters of fruit all over. Fruit is bright red in color, solid, and of fine quality. Ready to pick in 85 to 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 15c; 6 pkts., 15c; ½ oz., 25c; oz., 40c.

June Pink. This is a pink Tomato resembling “Earliana” in every way except the color. The vine is compact and branches freely producing handsome, good sized, deep pink fruit hanging in clusters. Fruit begins to ripen in about 90 days and bears for a long season.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 30c.

Golden Queen. The best yellow Tomato, it is handsome fruits of good size and very smooth, solid and meaty, and of mild flavor. On account of being a bright yellow color it makes an attractive dish when served together with red fruited Tomatoes.

Is medium early in ripening and a prolific bearer, beginning to ripen in 95 to 100 days, and it is claimed to be less mild. Pkt. (about 200 seeds), 4c; 3 pkts., 15c; 6 pkts., 15c; ½ oz., 30c.

Chalk’s Early Jewel

This is a popular early Jewel Tomato. Plants are tall and strong growers, straight and upright. The fruits are of a large size and of a sweet flavor, and the plants a stronger grower. The large handsomely shaped fruits are very solid, deep through, ripening up to the stem without any cracks or green core. Skin thin, but strong enough to make it a good shipper and a grand variety for the home garden. Ready to pick in 85 to 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 30c.

Bonny Best

A splendid large, second early, red Tomato. A vigorous grower and a heavy cropper. It acts its fruit in clusters of 5 or more, and is ready to pick in about 95 days. The shape is perfect and remarkably uniform in size. A great variety for forcing under glass.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 30c.

Quick Crop

I introduced this Early Tomato several years ago, and I have received nothing but praise for it from every section where it has been grown. It is a strong grower and a great producer. It is handsome in shape, of a beautiful dark red color, very smooth, thick from stem to blossom end, free from cracks and ridges, and very solid and heavy. The fruits are produced in large clusters ripening from early Summer until killed by frost. The vines are very hardy making it desirable for early planting and it deserves a place in every garden. Ready in 80 to 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 25c; oz., 40c.

Mills Early July

I have made quite a specialty of this early Tomato for several years. Its great value lies not only in the time of ripening its first fruits but that such a quantity of fruit can be picked from a single plant, while many other varieties ripen only a few fruits at a time. The fruit is of good size, bright red in color, solid, and of fine quality. Ready in about 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 30c.
**Orange Sunberry**

This new Sunberry is claimed to be an improvement on anything in the Sunberry class, and was only recently introduced by Luther Burbank, from whom my supply of seed comes. It resembles the black Sunberry, though even more productive and the berries grow in larger clusters, but above all, the berries ripen nearly a month earlier. The color of the berries is a beautiful orange and the productivity of the fruit will appeal to everyone. Give it a trial this year and report how you like it.

Pkt. (50 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

---

**Improved Golden Husk Tomato**

This is a very interesting and desirable Tomato, producing fruit in great quantity, which can be used for preserving, pies, etc. The fruit is bright red in color, small and pear-shaped, about one-third of an inch in diameter and will keep until midwinter. The flavor surpasses the strawberry and it is of easy culture doing well most anywhere. The fruit is produced in husks and the plant should be cared for as other Tomatoes. Ready to use in about 120 days.

Pkt. (about 200 seeds), 4c; 2 pkts., 10c; 6 pkts., 15c.

**Ponderosa Tomato**

This variety is very popular in many sections of the country. The vines are of strong growth and produce large clusters of beautiful Tomatoes. Fruit is deep purple in color, of immense size, very meaty and solid with small seed cells, and produced continuously until frost. A good Tomato for the home garden, beginning to ripen in 110 to 120 days. Pkt. (about 200 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

---

**Mammoth Fruited Ground Cherry**

This Ground Cherry will grow in almost any soil, and is just as easily raised as a Tomato. It is a very prolific bearer, fruit a handsome purplish in color when ripe, and oh! what luscious fruit. For sauce or pies they are excellent and they also make good preserves, and dried berries are extremely good. They are easily raised by many equal to raisins for cakes and puddings. The plants grow about 2½ feet high and should be planted and cared for like Tomatoes. Ready to use in about 120 days. Cooking recipes on every packet.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

---

**ALL KINDS OF TOMATOES IN MIXTURE**

This mixture is made up of all the different varieties of Tomatoes I offer as well as several others not in my list. From the very earliest to the latest sorts of the different colors, shapes, and sizes will be produced. A very interesting collection and should prove a real curiosity, maturing ripe fruits from about 80 to 130 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

---

**Orange Sunberry**

This is one of the best, second-early, large-fruited, smooth, main crop Tomatoes in cultivation. It is a strong, vigorous grower, making thrifty vines which produce an abundance of tomatoes throughout the season. Many market gardeners depend on Matchless for main crop. The fruit is large, solid, and meaty, bright cardinal red in color, of excellent flavor, containing but few seeds, and is a splendid keeper. In many sections the strong vines are inclined to overbear, and it is a standard sort for market gardeners, canners, and the home garden. Ready for market in 110 to 120 days.

Pkt. (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; 1/4 lb., 75c; 1 lb., $2.50.

**Pear Tomato**

This is a handsome pear-shaped variety used for making tomato Figs or preserving. The fruit is bright red in color, and is just as easily raised as a Tomato. It is a very vigorous grower, making thrifty vines which produce a large cluster of ripe fruit at one time. These small tomatoes are excellent and they also make good preserves, while another customer writes: "Had good success with Garden Berry. We picked ripe berries from August until frost." Another customer writes: "We picked ripe berries from August until frost. The bushes were in full bloom and loaded with green berries when killed by frost."

Pkt. (about 50 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

---

**Albino or White Tomato**

At last we have a White Tomato. This new white variety is a beauty, contains no acid and so will make tomatoes agreeable to thousands of people who have heretofore avoided them on account of the acidity. The fruit is ivory-white in color and the flesh is almost papery-white, small and solid, having few seeds, making the seed rather high in price. The plants grow strong and robust and bear fruit for a long time in clusters of 3 to 9. This is a real novelty and the best white tomato ever offered. Ripens early.

Pkt. (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.
Purple Top White Globe

A large globular variety, very even in shape and of handsome appearance. The crown is purplish-red and the remainder of the root white. The flesh is white, of excellent quality and desirable for table or stock. This variety is a good keeper and fine market sort.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 3c; % lb., 25c; % lb., 40c; lb., 70c.

Early Purple Top Strap-Leaf

Roots are quite flat, flesh is very fine grained, sweet and tender. It is a quick grower, planted largely for table use. Will form good-sized roots in about 55 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; % lb., 25c; % lb., 40c; lb., 70c.

Early Snowball or Six Weeks

A pure white variety, bulbs having a smooth, white skin and flesh, being fine grained and very sweet. Matures in about 60 days.

Pkt. (about 1000 seeds), 1c; 3 pkts., 3c; 6 pkts., 6c; oz., 8c; % lb., 25c.

Rutabagas

Purple Top White Globe.

Heavy Cropping Rutabaga.

Purple Top Strap Leaf.

Improved American Purple-Top

A very productive sort, yielding large, smooth, globe-shaped roots with purple top, yellow skin and flesh, being fine grained and very sweet. Matures in about 50 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; % lb., 25c; % lb., 40c; lb., 70c.

Giant White Sweet

An extra good white Rutabaga, growing to a large size. The flesh is white, firm, rich, crisp, and a good market sort. Matures in about 60 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; % lb., 25c; % lb., 40c; lb., 70c.

Ground Almond or Chufa

Have a fine flavor resembling the Cocomntt or Almond. The nuts grow close to the surface on strong plants, and yield large quantities. The meat is snow-white covered with a thin shell or skin of brown color. If planted in early Spring a bit of nuts may be expected in the Fall. In the South they are much planted for feeding of hogs and poultry.

Pkt. (over 100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Rhubarb or Pieplant

GIANT CRIMSON. The best Rhubarb, slightly larger, rounder. The flesh is white, firm, rich, and tender. The quality is superior. The skin is white covered with a thin half-inch brown skin. If cooked gets a beautiful crimson color. Rhubarb is the first vegetable from the ground in Spring and plants may be raised easily from seeds.

Pkt. (about 150 seeds), 3c; 3 pkts., 9c; 6 pkts., 24c.

Salsify or Vegetable Oyster

MAMMOTH SAN-FRANCISCO BAY. The best variety grown and the most profitable. The roots are of very superior quality and delicate in flavor. Sew seeds in Spring as the roots require a full season to mature.

Pkt. (about 250 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

Rutabaga Mixture

A Grand Mixture of all Turnips. I have made up a great mixture of garden Turnips and Rutabagas including both white and yellow-flushed varieties. It is a wonderful collection and will mature roots all the way from 45 to 100 days. You should try it.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; % lb., 25c; % lb., 40c; lb., 70c.

Surprise Collection of Vegetable and Flower Seeds

20 PACKETS VEGETABLES

10 PACKETS FLOWERS

$1

My seed crops have been large, which enables me to make up a lot of SURPRISE COLLECTIONS containing the following:

- 1 pkt. Beans
- 1 pkt. Lettuce
- 1 pkt. Peas
- 1 pkt. Carrots
- 1 pkt. Cucumber
- 1 pkt. Okra
- 1 pkt. Radish
- 1 pkt. Spinach
- 1 pkt. Squash
- 1 pkt. Tomate
- 1 pkt. Turnip
- 1 pkt. Rutabaga

10 PACKETS FLOWER SEEDS, all my selection, at a very good price.

Remember this SURPRISE COLLECTION is a real SURPRISE to every purchaser. I have such large crops of many kinds of seeds it enables me to make this remarkable offer. These seeds will plant a garden 30x50 feet. Try them this year. In ordering just ask for the SURPRISE COLLECTION for $1.00.

Beautify Your Home With Flowers

ASTERS

Beautiful Asters have been my specialty for years and I have supplied my customers with millions of packets of the seed. As you know, Asters are very popular and are the Queen of Autumn Annuals. They make such a brilliant show and furnish a constant supply of cut flowers until killed by frost. They are so easily raised from seed that I want every customer to grow some of these Asters this year.

The varieties shown on this page represent the most beautiful, artistic and robust types of the wonderful Aster family. Leaflet "How to Grow the Most Beautiful Asters" sent free if asked for.

American Branching
A strong grower, branching freely, flowers large and double, on long stiff stems. Rose Pink.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Silvery Rose
A new variety with long stems, large flowers of a deep blue-rose, almost cerise color, very delicately shaded with white.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Giant Branching Comet
Plants grow tall, branches freely, stems long, flowers large, petals curved and twisted. Dark Blue.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

New Asternum
A beautiful new race of Asters, plants of strong upright growth, flowers large with long graceful petals. Lavender.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Ostrich Feather
A strong grower, producing mammoth full flowers on long stiff stems. Petals gracefully curved and twisted. White.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Giant Crego
A monster among the Asters. Strong grower, branching freely, stems long, flowers large, petals curved and twisted. Purple.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

King or Needle
Entirely distinct. flowers very large and double, petals quilled. Very odd and striking. Cinnamon.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Lady Roosevelt
The plant is a strong grower and blooms profusely; the flowers are large on long, stiff stems. Rose Pink.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Heart of France
A plant a strong grower, producing mammoth flowers of a soft delicate pink color. One of the most beautiful reds.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Pink Enchantress
Very vigorous, producing large flowers of a soft delicate pink, always full double. A very beautiful Aster.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Earliest Blooming
Earliest of all, usually two weeks ahead of other sorts. Plants of a graceful spreading habit. Crimson.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

Daybreak
This is a wonderful aster. Strong grower, producing great quantities of flowers on strong stiff upright stems. Lavender.
Pkt. (50 seeds), 10c; 3 pkts., 25c.

MILLS GIGANTIC FLOWERING ASTERS

A wonderful mixture of colors of all the Mammoth varieties and I am sure every lover of Asters will be astonished at the wide range of colors in this mixture.
Pkt. (200 seeds), 10c; 3 pkts., 25c; ½ oz., 35c; oz., $1.00, postpaid.
Chinese Woolflower.

**Chinese Woolflower**

*(Colocasia Chinensis)*

Plants grow from 2 to 3 feet high, branching freely, each shoot bearing beautiful ball-shaped flower-heads of a purplish crimson color.

Pkt. (100 seeds), 6c; 3 pkts., 12c; 6 pkts., 20c.

**Celmisia**

All Varieties Mixed. A wonderful collection of Celmisia made up from all the different varieties.

Pkt. (200 seeds), 6c; 3 pkts., 12c; 6 pkts., 20c.

**Blue Lace Flower**

A new and most beautiful flower from Australia. The lovely umbel-shaped flowers are composed of a large number of florets and its color is the most beautiful imaginable, a clear heavenly blue—a rare and beautiful shade. While so beautiful in shade and color, it is of the easiest culture, and seed sown out-of-doors after frost will bloom from July until October. It also thrives inside as a pot plant and will furnish flowers for a long period. I know of no annual that will give more pleasure than this beautiful flower with its dainty lace-like bloom.

Pkt. (100 seeds), 3c; 3 pkts., 6c; 6 pkts., 12c.

**Bells**

*(Double Daisy)*

Blooms very early in Spring; fine for beds or borders. Do well in cool shady places.

Mixed Colors, pkt. (300 seeds), 4c; 3 pkts., 12c; 6 pkts., 18c.

**Balsam**

*(Lady Slipper)*

One of the showiest of annuals, easy to grow. Plants grow 15 to 24 inches high, producing an abundance of double flower sprays. Mixed colors, pkt. (75 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c.

Cultural directions are printed on all flower seed packets.

**Campanula**

*(Canterbury Bellhy)*

Finest single. These are well-known and are easily grown in any garden. Mixed Colors. Pkt. (100 seeds), 4c; 3 pkts., 12c; 6 pkts., 18c.

**Candytuft**

GIANT HYACINTH-FLOWERED. One of the most useful hardy annuals. Most desirable for cut flower purposes on account of the immense white flower heads on upright stalks as shown by the illustration. Pkt. (300 seeds), 4c; 3 pkts., 12c; 6 pkts., 18c.

Mixed colors. This includes many varieties and colors. Pkt. (300 seeds), 4c; 3 pkts., 12c; 6 pkts., 18c.

**Chinese Woolflower.**

**Alyssum**

Little Gem (Carpet of Snow). Very dwarf, each plant covering a circle of 5 or 6 inches, solid mass of white all summer. Fine for edging.

Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

**Aquilegia (Columbine)**

Fine for flowering hardy border plants. Seed may be planted in the ground early in the Spring and the single varieties bloom the same season. Seed may also be planted in August, when the plants will come up early in the Spring, making vigorous plants and bloom during Spring and Summer.

Single and Double Mixed. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

**Campanula Imperialis**

Undoubtedly the finest of the Centaureas for cutting purposes. The beautiful and delicately scented flowers are borne on long stems and last several days after cutting. Double and Single Mixed. Pkt., 6c; 3 pkts., 20c; 6 pkts., 30c.

**Calliopsis**

Little Gem (Carpet of Snow). Very dwarf, each plant covering a circle of 5 or 6 inches, solid mass of white all summer. Fine for edging.

Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

**Calliopsis**

These are half-hardy annuals of quick growth, producing a profusion of bright-colored flowers all summer if planted early in Spring. Special Mixed. All sorts and colors.

Pkt. (400 seeds), 4c; 3 pkts., 12c; 6 pkts., 25c.

**Calendula**

*(Orange King)*

This is a most beautiful and popular annual growing well from seeds in any good garden soil. It blooms freely and continues in bloom from early Summer to late in the Fall. Plant grows 10 to 15 inches high, producing masses of beautiful double flowers of deep orange-yellow color and it is suitable for pot culture for Winter blooming.

Pkt. (50 seeds), 6c; 3 pkts., 12c; 6 pkts., 25c.

**Centaurea Imperti *Sultan.***

**Centaurea Imperti *Sultan.***

Unquestionably the finest of the Centaurea for cutting purposes. The beautiful and delicately scented flowers are borne on long stems and last several days after cutting. Double and Single Mixed. Pkt., 6c; 3 pkts., 20c; 6 pkts., 30c.

**Balsam**

*(Lady Slipper)*

One of the showiest of annuals, easy to grow. Plants grow 15 to 24 inches high, producing an abundance of double flower sprays. Mixed colors, pkt. (75 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c.
Cosmos

Giant Early Flowering. This new strain is very early, blooms profusely, flowers being much larger than any other early flowering Cosmos.

Mixed Colors. Pkt. (150 seeds), 4c; 2 pkts., 10c; 6 pkts., 15c.

Late Giant Flowering. Plants grow 3 to 5 feet high, blooms profusely in late Summer and Autumn.

Mixed Colors. Pkt. (150 seeds), 4c; 2 pkts., 10c; 6 pkts., 15c.

Anemone Flowered or Crested. A very beautiful flower, differing from the ordinary Cosmos in the formation of the center of flower, which is very double and stands up like a cushion. The flowers are produced in colors of crimson, pink and white and their beauty is much admired. Excellent for cutting as the blooms last well in water. They are as easily grown as the ordinary Cosmos and every gardener should grow this improved strain.

Pkt., 10c; 3 pkts., 25c.

Christmas Cherry

This is the most showy and interesting plant for garden or house culture. The plant grows about a foot in height, with dark green leaves and an abundance of fruit. It is called by some a Jerusalem Cherry, and at first the fruit is green, turning to the brightest glossy scarlet when ripe. Sow seeds in house early in Spring, transferring the plants to the garden after danger of frost, and by Fall they will be loaded with cherries, and may be potted and taken into the house, and the fruit will hang on the plant nearly all Winter, which makes a very attractive pot plant. Fruit not edible.

Pkt. (50 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Early Flowering Marguerite Carnation

The Early Flowering Marguerite Carnation is a grand strain, producing flowers in about 4 months from seed. They are quite hardy, flowering the first season until late in the Fall. Plants grow strong, producing a great abundance of fragrant double flowers in a variety of colors such as pink, white, scarlet, purple, red, flaked, variegated, striped, etc. Seeds sown during the Summer will produce plants which can be potted in the Fall and will produce an abundance of bloom throughout the Winter.

Mixed Colors. Pkt. (100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Delphinium - Hardy Larkspur

Gold Medal Hybrids. See illustration in natural colors and description on front cover.

Mixed Colors. Pkt., 10c; 3 pkts., 25c.

Digitalis - Foxglove

See illustration in natural colors and description on front cover.

Mixed Colors. Pkt., 5c; 3 pkts., 12c.

Early Garden Pinks

These new Pinks bloom the first Summer from Spring sown seed. They flower in great profusion giving a great array of fine colors from white through different shades of pink, crimson, and variegated. All have that rich fragrance so prized in the Garden Pinks.

Mixed Colors. Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.
The California Poppy is a showy, quick growing free-flowering annual, of low, spreading growth, blooming throughout the season. Nothing can excel it in brightness. Sow the seed early in the Spring where the plants are to bloom and it will be found a bed or border will be very attractive in the many gorgeous colors.

Mixed Colors. Pkt. (250 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Four O'Clock - Marvel of Peru

The flowers have the strange habit of remaining closed until about 4 o'clock in the afternoon, when they all open, becoming a bank of vivid coloring filling the air with a delightful fragrance. Grows about 2 feet high.

Mixed Colors. Pkt. (50 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Japanese Morning Glory

Flowers are of gigantic size, the colorings and markings ranging from snow-white to black-purple with all the possible intermediate shades such as fiery red, pink, rose, red, carmine, copper, crimson, deep blue, pale blue, royal purple, maroon, indigo, bronze, slate, brown, and cherry, while many have throats spotted, marbled, striped, and splashed. Mixed colors.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Gypsophila

PANICULATA, SNOW WHITE.

One of the most important hardy perennials of recent introduction. The plant grows from 3 to 3½ feet high, bearing its pretty little double white flowers in much-branched panicles which, when cut, can be used to great advantage with other flowers, for bouquets or by themselves as they retain their beauty for months. A most desirable addition to the hardy border. Pkt., 6c; 3 pkts., 15c.

Anemone

A very pleasing perennial having large flowers, few plants comparing with them in beauty; wonderful range of color. Sow outdoors in Spring; keeping shaded till the plants appear. Mixed Colors, pkt., 6c; 3 pkts., 15c.

Forget-Me-Not

(Myosotis)

These charming little favorites succeed best in damp, shady places but will thrive in almost any soil, and produce flowers of blue, white, rose, and other shades.

ALPESTRIS MIXED. Pkt. (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Hollyhocks

These are as easily grown from seed as any annual and commence blooming in about 12 weeks, and continue throughout the season. This is a wonderful free-flowering sort and produces large flowers in many beautiful colors. I offer a special collection in mixed colors both single and double.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

W. C. Wood, Downingtown, Pa., writes: "Your hollyhocks were the wonder of the Greenfield people. I had one stalk 8 feet high with 350 blooms."
**Lathyrus**

(Everlasting or Hardy Sweet Pea)

A very desirable hardy climber growing 6 to 8 feet high when trained on trellises. The flowers are borne in colors of white, rose-pink, red and blue shades. It is peculiarly adapted to rough places, such as scrambling over rocks and bushes. Flowers are long stemmed covering unsightly places where they can trail up to 10 feet from the ground. The foliage being very attractive.

**Japanese Kudzu Vine**

(A Jack-and-the-Beanstalk Vine)

A remarkable climber from Japan. Perfectly hardy and with ordinary treatment will grow 30 to 40 feet in one season, filling the air with fragrance from its large clusters of purple wisps. The foliage is large, shaped like the leaf of a bean. For the earliest blooming start indoors and transplant to open ground when danger of frost is past. Allow 18 inches between plants for development, as they grow about 3 feet high.

**Moonflower**

A beautiful annual rapid climber growing 6 to 8 feet high, the flowers being produced in a wide range of delicate colorings. Many of the sorts open only when the sun rises, others when the sun sets. I offer all different varieties in a special mixture. Seeds should be soaked in warm water for 24 hours before sowing to assist rapid germination. Try my mixture of Moonflower this year.

**Kochia (Summer Cypress)**

This is an annual plant of very rapid growth, sometimes called “Burning Bush.” Makes plants as shown in the illustration about 2 feet high. Leaves slender, of light pea green until Fall, then changing to blood red and carmine. Fine for temporary hedge, border or dividing line. No garden is complete without a small bed of Mignonette. It is one of the most delicately scented of all flowers. Plants grow rapidly from seed sown in the open ground in Spring; from 12 to 15 inches high and produce long blossom spikes in great abundance.

**Mignonette**

No garden is complete without a small bed of Mignonette. It is one of the most delicately scented of all flowers. Plants grow rapidly from seed sown in the open ground in Spring; from 12 to 15 inches high and produce long blossom spikes in great abundance.

**Marigold**

A well known annual, flowering from early Summer far into the frosts of Autumn. I offer the Dwarf and Tall varieties.

**Larkspur**

GIANT. This is a well known annual of great beauty producing large double flowers of various colors, shades, and markings which are borne on long spikes like immense Hyacinthas. Easily grown.

**Nicotiana**

Flowering Tobacco

AFFINIS. Handsome bedding plants of long and free blooming habit; the flowers are attractive in shape, pure white and delightful fragrant. No garden is complete without a small bed of Mignonette. It is one of the most delicately scented of all flowers. Plants grow rapidly from seed sown in the open ground in Spring; from 12 to 15 inches high and produce long blossom spikes in great abundance.
Phlox (Flame Flower)

The annual Phlox surpasses almost everything else in dazzling brilliancy and is of the easiest culture. They will thrive on any soil if given a sunny location and will continue until severe frost in the fall. When sown en masse, the coloring is varied and brilliant beyond description.

LARGE BLOOD RED. The darkest colored. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

WHITE. Stark white. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

ALBA. Large pure white. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

PRIMROSE. Large soft primrose yellow. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

DWARF PHLOX. This type is entirely different from the ordinary Phlox. The flowers are either starred or fantastically fringed, and in many bright shades of color.

Mixed Colors, pkt. (150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Stretched and Fringed Phlox

As brilliant and showy as the finest Tulip. This is a most showy Phlox. Plants grow about 15 inches high.

ROYAL BEAUTY. All colors, single and double mixed. Pkt. (300 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Gorgeous Poppies

Poppies should be in every garden for they are so easily grown. Sow the seed thinly in drills or broadcast early in the spring where the plants are to stand and barely cover the small seeds from view. When sown en masse, the coloring is varied and brilliant beyond description.

INTENSE BLOOD SCARLET with jet black center. Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

WHITE. Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

ALBA. Large pure white. Pkt. (1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

MIXED COLORS. Both single and double. Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

MIXED COLORS. Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

PORTULACA. Valuable for low beds, edgings, and borders. Pkt. (1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

MILLS GIANT PANIES

Mills Giant Pansies are perfect marvels in size and beauty. They produce giant flowers in the most wonderful colors and without doubt represent the highest attainable degree of perfection as regards size and coloring of the flowers; they often measure 3 to 4 inches across, of clear tones of color with wonderful tints and variations such as white with dark center, lavender and dark lilac, blue, blue-bone, royal purple, rose, red with silver rim, mahogany, yellow, wine-colored, red and gold, lavender and gold, striped, marbled, pure white, black, etc.

MIXED COLORS, pkt. (100 seeds), 10c; 3 pkts., 25c. Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.
Petunias

For garden or house culture few plants equal Petunias for effectiveness. They grow readily from seed and are exceedingly useful for borders, solid beds, window boxes, and even in containers. They form compact bushes which are literally covered with thousands of flowers in wonderful colors, beginning to bloom early and lasting all Summer.

Bedding Petunias This type is well suited for beds and borders. Plants form compact bushes which have more or less veining, the main color being a crimson-maroon throughout the entire Summer and Fall, and are of the most pleasing clear pink with a silvery white throat. Petunia - Ruffled Monsters

Ruffled Monsters This strain embraces a wide range of colors in most beautiful combinations including pink, red, variegated, white, blue, and many dark velvety shades. The petals are waved and frilled, curled or twisted, giving an extremely pretty flower. This strain is carefully hand-pollinated and seed is very costly.

Mixed Colors. Pkt. (100 seeds), 25c; 6 pkts., 15c; 6 pkts., 25c.

Balcony Petunias

For window or porch boxes, terraces, etc., the Balcony Petunia will supply a floral effect throughout the entire Summer that is sure to please the eye. The colors range from various shades of blue, white, rose and red.

BALCONY MIXTURE. All colors. Pkt. (200 seeds), 10c; 3 pkts., 25c; 6 pkts., 40c.

Salvia (Scarlet Sage)

Sow seed in March or April in a hotbed or outdoors and set outside after danger of frost.

SPLENDENS. The most popular variety, producing beautiful large, bright scarlet flowers. A profuse and long season bloomer. Height 2½ to 3 feet.

Pkt. (100 seeds), 10c; 3 pkts., 25c.

AMERICA or GLOBE OF FIRE. The freest and most continuous bloomer, dwarf and very uniform in habit of growth. Spikes closely set with mum¬

Large Flowering Ten Weeks Stocks.

STOCKS

LARGE-FLOWERED TEN WEEKS. This handsome type of Stocks produces plants from 15 to 18 inches high, and is most suitable for border or for pot culture. Seed for early flowering plants should be started in the house in February or March. Plants prefer a sunny location and produce immense spikes of handsome flowers of various colors having a delicate fragrance.

Mixed Colors. Pkt. (75 seeds), 5c; 3 pkts., 15c; 6 pkts., 25c; oz., 50c.

Smilax A popular and desirable vine, grown for its attractive foliage and handsome flowers. Excellent for growing as a climbing plant in window boxes.

Pkt. 6c; 3 pkt., 20c; 6 pkt., 35c.

Vinca (Madagascar Periwinkle)

Ov

Wild Flower Garden Mixture

This mixture contains almost every imaginable kind of Annual Flower, and is useful as an inexpensive way to produce display along walks, fences or large borders. By sowing a liberal supply of this seed it is easy to convert unsightly spots into a place of beauty. Every day during the flowered mixture furnishes new surprises in the way of flowers in all sizes and colors.

GIANT ZINNIAS

Mills
Select Sweet Peas

Culture leaflet on Sweet Peas free if asked for.

Lord Nelson
A variety destined to become very popular. It is of a rich navy-blue-self that holds its color. One of the very best in this shade.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

King Edward
The flowers are waved and crinkled, of a rich, sun-proof carmine-scarlet. The best of its particular type, attracts attention wherever grown.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Warrior
Flowers of a deep maroon or dark wine-red. Leaves of dark shades will be attracted by the large, well-waved and artistic blooms. Very striking.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Countess Spencer
A very early and beautiful variety. The outer edges of the petals, suffused and tinted with light orange-crimson standard and rosy or rose-pink wings. One of the most beautiful Spencers in the list.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Elfrida Pearson
Flowers very large. Buds and flowers in the early stages tinted with salmon-pink, which slowly assume a lovely soft pink. Very beautiful.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Blanche Ferry
A beautiful rose-pink standard with white wings, suffused and tinted with light pink. A very early and beautiful variety.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Helen Lewis
A distinct variety with a large, intense rich orange-crimson standard and rosy orange wings. One of the most beautiful Spencers in the list.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Lavender George Herbert
Magnificent shade of bluish-lavender. Strong and vigorous in habit and blooms profusely. A very beautiful sort.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Ritchie Ponrenn
The outer petals are of a deep mahogany brown at the end of each petal, or dark wine-red. Lovely and crinkled, of a rich, sun-proof carmine-scarlet. The best of its particular type, attracts attention wherever grown.

Pkt. (30 seeds), 8c; 3 pkts., 20c.

Picotee
A beautiful new type of Zinnia, large flowering, in many bright colors, orange, pink, yellow, etc., all flowers tipped rich mahogany brown at the end of each petal.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Giant Flowering Gorgeous Sweet Peas
Should be grown by every one of my customers. It is a wonderful mixture producing giant flowers in all possible color variations to be found in sweet peas. They will grow anywhere you can raise common garden peas, and begin to bloom early and continue for months. To secure beautiful blossoms.

All Colors Mixed. Pkt. (100 seeds), 8c; 3 pkts., 26c; oz., 30c.

Rainbow Collection of Gladioli

Gladioli are becoming more beautiful each year as improvements in size and new and delicate colorings are brought out. The magnificent new varieties I have added to my Rainbow Collection will make it more popular than ever, and I am convinced that a more beautiful flower for cutting cannot be produced.

I have added many new varieties of the largest flowering type that gives a wonderful range of colors and beautiful tints, and all varieties that show great vitality when growing in ordinary soil, so that I am sure that no one who sees them will be disappointed. If you are located, you can have the greatest array of beautiful Gladiolus flowers at a small cost as my prices for these bulbs is remarkably low considering that the Rainbow Collection is made up of the best large flowering type producing the best colors to be had.

By planting a liberal supply (100 or more bulbs if you possibly can) in the border or flower bed, planted at intervals from as early in Summer as the ground can be worked until late in the Fall, you can have a continual supply of beautiful flowers from about 60 days after planting until late in the Fall.

Complete Cultural Directions sent with every order we fill and we guarantee that the bulbs will reach you in good growing condition.

I am growing large fields of Rainbow Collection Gladioli on my own land and feel that I can supply you with the most satisfactory mixture of Gladioli to be had.
Beautify Your Home With Flowers

Giant Purple: A most striking shade of light purple, being such a rich and pleasing color it attracts attention wherever grown. Flowers immense in size.
Pkt. (about 50 seeds), 10c; 3 pkts., 25c.

Giant Salmon Rose: A beautiful color, rich salmon—rose, a most striking shade the ways admired. Flowers mammoth in size and perfect in form.
Pkt. (about 50 seeds), 10c; 3 pkts., 25c.

Giant Bursted Orange: A rare color impossible to describe, being a most appealing shade of burnt orange.
Pkt. (about 50 seeds), 10c; 3 pkts., 25c.

Giant Carcanary Yellow: Plants grow very strong and flowers mammoth in size, being exceedingly attractive in beds and borders.
Pkt. (about 50 seeds), 10c; 3 pkts., 25c.

A Gorgeous Perennial Plant
An interesting plant that should be grown in every garden, the Chinese Lantern Plant. It is a very showy, hardy perennial, that does well in any location in ordinary garden soil, growing to a strong bush nearly 2 feet in height, producing the first year, an abundance of balloon-like husks, inside of which the fruit is produced. These husks are first green, then slowly change to a clear canary-yellow, and borders
Pkt. (about 50 seeds), 10c; 3 pkts., 25c.

F. B. MILLS, Seed Grower, Rose Hill, N.Y.
Grow Super - Giant Snapdragons

All other snapdragons are out-classed in form, size, and fragrance by the recent introduction of this new strain, which can be readily grown from seed in ordinary garden soil in a sunny or partly shaded situation.

Words are inadequate to describe the colorings, ranging through pure white, pink, scarlet, maroon, orange, old rose, purple, and other colors and shades in beautiful combinations without limit.

Seed sown out-of-doors the first week in May comes into bloom early in July, blooming until frost. Plants have spikes over 3 ft. tall, closely set with well formed flowers, double the size of ordinary snapdragons, and their free blooming habit allows constant cuttings from early July until late Fall. Winter blooms may be had by cutting the plants back in the Fall and setting in pots for Winter flowering inside. I offer 8 varieties which I especially recommend to be grown in the garden, wherever you may be located, as they succeed most everywhere. Read my SPECIAL OFFER.

 Cultivation directions on every packet.

Special Offer 1 packet of each variety, 8 packets in all, for only 60c; 2 collections (16 packets), $1.00.

You should grow these 8 SUPER GIANT SNAPDRAGONS. I will mail to any address, 1 packet of each variety, 8 packets in all, for only 60c; 2 collections (16 packets), $1.00.

F. B. MILLS, Seed Grower - Rose Hill, N. Y.
